9. For rule 35 substitute the following:—

"35. An elector duly qualified under rule 21 shall be entitled to vote for the thana in which he is resident and for the special electoral unit, if any, in which that thana is included, and for no other thana or special electoral unit. He shall be entitled to vote for as many candidates as there are vacancies for such thana and for such special electoral unit, but shall not give more than one vote for a single candidate in the thana election or special election respectively."

10. For rule 41 substitute the following:—

The presiding officer or the assistant presiding officer, as the case may be, shall then proceed to take a poll for each candidate, the votes being recorded by himself and his assistant presiding officers, if any. (b) then decide the result of the election to the ordinary seat or seats, declaring to be duly elected among the remaining candidates the candidate or candidates who have received the largest number of votes."

12. For rule 43A substitute the following:—

"43A. At a thana election or at an election in a special electoral unit where there is more than one polling centre the presiding officer or the assistant presiding officer, as the case may be, shall, on the conclusion of the poll, seal up the records of the votes prepared by him and prepare a report stating the number of voters who attended and the number of votes cast in favour of each candidate in the special election and thana election separately. He shall announce publicly the number of votes cast at the centre for each candidate. Any record sealed and report prepared by an assistant presiding officer shall be forwarded without delay to the presiding officer. When the presiding officer has received all the records and reports, he shall, after checking the records with the reports, record the number of total votes cast in favour of each candidate. He shall then proceed in the following manner:—

(i) if there is no special seat allotted to the thana or if there is no special election, he shall declare the candidate or candidates who have received the largest number of votes to be duly elected at the place and time previously notified under rule 33;

(ii) if there is a special seat allotted to the thana he shall declare the result of election to the special seat as well as to the ordinary seat or seats in the manner prescribed in proviso (i) to rule 43; or

(iii) if the thana is a part of a special electoral unit, he shall announce publicly the number of votes cast for each candidate and forward the records in a sealed cover to the Magistrate of the district for declaration of the results of the election to the special as well as ordinary seats.

43AA. The Magistrate of the district shall on receipt of the report from the presiding officer under rule 43A(iii) declare the result of the elections in the following manner:—

(a) he shall first decide the result of the special election declaring the special candidate or candidates to be duly elected who may have received the largest number of votes, and

13. For rule 47 substitute the following:—

"47. (1) In the event of any person being elected to two or more ordinary or to two or more special seats, such person shall be at liberty to choose which thana or special electoral unit he will represent, and in every other thana or special electoral unit for which

the said person has been returned, the result of the election shall be determined under the preceding rule as if no votes had been recorded for him, and, if necessary, a fresh election will be held.

(2) If any person is elected both to an ordinary and to a special seat, he shall be deemed subject to the provisions of sub-rule (2) of rule 32, to have been elected to the special seat only and, in the thana for which he has been returned, the result of the election shall be determined as prescribed in sub-rule (1)."

14. For rule 53 substitute the following:—

"53. A Local Board shall not elect members for the District Board until—

(a) the number of members of the District Board to be elected by such Local Board, to ordinary or to special seats, has been fixed by notification under section 7 or section 10A of the Act as the case may be, and

(b) such Local Board has elected a chairman."

15. After rule 53 insert the following as a new rule:—

"53A. When under section 10A a community has been determined by the Local Government to be a minority community in any area under the authority of a District Board, the Commissioner shall determine how many members shall be elected by each Local Board to the special seats reserved on the District Board for such minority community, in the following manner, namely:—

(a) he shall assume for this purpose that voting will be on a strictly communal basis, i.e., that all members of a Local Board belonging to the minority community will vote only for candidates belonging to that community, that no members belonging to other communities will vote for such candidates, and that all members of the Board will vote at the election;

(b) he shall then calculate how many members of the minority community would, on the above assumption, be elected to the District Board from each Local Board; and

(c) he shall then allot the special seats among the various Local Boards in such manner as he thinks fit but in such a way that, if the voting is on a strictly communal basis, the total number of members of the minority community elected to the District Board will not be more than the number of the special seats;

Provided that in no case shall he declare all the seats to which election is to be made by any Local Board to be special seats."

16. For rule 54 substitute the following:—

"54. (1) Within one month from the date of publication of the notifications referred to in clause (a) of rule 53 or of the election of the Chairman of a newly constituted or reconstituted Local Board, whichever be the later, the Local Board shall elect the requisite number of members for the District Board at a special meeting to be convened by the Chairman."

(2) The meeting shall be presided over by the Chairman or in his absence by the Vice-Chairman, or in the absence of both the Chairman and the Vice-Chairman by a member elected for the purpose by the members present. In the last case, the member elected to preside shall be duly proposed and seconded.

(3) The election shall proceed as follows:—

- (a) Any member present may propose a candidate either by name or by virtue of his office, for election to the District Board.
- (b) Such proposal shall not be taken into consideration unless it has been seconded by a member other than the candidate or the proposer.
- (c) If the number of candidates duly proposed and seconded either for the special or for the ordinary seats, as the case may be, be less than or equal to the number to be elected by the Local Board in each case, the President shall declare such candidate to be duly elected.
- (d) If the number of candidates duly proposed and seconded be greater than the number to be elected by the Local Board the President shall hand to each member present a voting paper in the form below in which the names of candidates who have been duly proposed and seconded have been entered and shall ask each member to record his vote by placing the mark x in the space provided for the purpose in the voting paper opposite to the name of the candidate or the names of the candidates whom the member prefers and to sign his name on the back of the counterfoil of the voting paper.

1.		Fold here (perforated)
2.

4.		

(e) The voting paper shall be invalid if the mark x is placed opposite the name of more candidates than the number to be elected or if it is so placed as to render it doubtful to which candidate such mark is intended to apply, or if any mark is made on the foil of it by which the voter may be identified.

(f) Each member shall proceed in turn to a place set aside for the purpose and shall there fill in the voting paper in such a manner that no other person can perceive what he writes. After placing the mark x on the voting paper he shall fold the counterfoil so as to conceal the votes recorded, sign his name on the back of the

counterfoil and then hand the paper to the President. Without such folding of the counterfoil or signature the voting paper shall be invalid.

(g) The President as soon as all the voting papers have been delivered to him, shall in the order hereinafter specified—

- (i) reject any voting paper which is unsigned or of which the counterfoil is not properly folded;
- (ii) tear off the counterfoils containing the signature and place them apart from the voting papers proper;
- (iii) reject any voting paper which is irregularly marked;

- (v) count the votes;
- (vi) declare the special candidate or candidates to whom the largest number of votes may have been given to be duly elected to the special seat or seats on the District Board, and
- (vii) declare those among the remaining candidates to whom the largest number of votes may have been given to be duly elected to the ordinary seats on the District Board.
- (viii) If for any seat no candidate receives a majority of votes the result of the election to that seat shall be decided by lot.

(4) Notwithstanding anything contained in rule 74 or in the Rules of Business adopted by any board, if there are more candidates than vacancies the names only of the persons proposing and seconding and the number of persons voting for each candidate and the names of the candidates duly elected shall be entered in the proceedings."

11. (a) **Fishing rules.**—Fishing boats shall observe such of the above rules as relate to small craft. No stake or net or other appliance used for the purpose of attracting or catching fish shall be placed, at any time during the day or night, in the navigable channel of the river between Howrah Bridge and the south end of Uluberia Reach.

28. Sea-going vessels occupying moorings shall not turn their screws or paddles without giving sufficient warning to boats in the vicinity; they shall not use full power when trying their engines in moorings; no trial under steam shall be made by a vessel lying at the Calcutta or Garden Reach jetties.

They shall also strike their yards and masts when so ordered by the Harbour Master. Such vessels about to leave the Port may send their top-gallant yards aloft 48 hours before leaving the moorings.

(c) From the first day of May until the 30th day of June, and from the 1st day of October to the 15th day of November, all sailing vessels in Port classified as sea-going shall have their royal and top-gallant yards on deck, and mast-ropes rove in readiness to send the top-gallant mast down at short notice if required. Such vessels entering the Port between the above dates, having top-gallant masts and yards aloft, may be placed in moorings but their top-gallant yards shall be sent down within 24 hours after they are moored.

31. **Storm signals.**—On the occurrence of signs of an approaching cyclone day signals No. X (Great Danger), consisting of two cones apex to apex, and below them a vertical drum, will be hoisted during day light from the flagstaff on the roof of the Commissioner's office, Koilaghat, another similar signal from the flagstaff on the clock tower at the entrance to the Kidderpore Docks, and another on the flagstaff on the Assistant Harbour Master's House at Budge Budge. During the night, under similar circumstances, two red lights with a white light between them, all in a vertical line, will be exhibited from the same flagstaffs. When these signals are displayed, masters and persons in charge of all vessels whatever shall immediately take every precaution in their power to make their vessels snug and secure, by having awnings furled, and the lower and top sail-yard counter-braced or pointed to the wind, as seems best. Heavy hawsers shall be bent to both bower anchors ready for use.

32. **Hoisting of Blue Peter.**—All vessels about to leave the Port shall hoist the Blue Peter at the fore at 6 a.m. on the day previous to that on which they leave the moorings, and shall keep it hoisted until the Pilot assumes charge of the vessel to take her to sea.

The use of fire-works shall be prohibited on all vessels within the limits of the Port.

35. **Vessels to carry fire-buckets.**—All vessels in Port shall be provided with fire-buckets, three buckets for every hundred tons of registered measurement up to 600 tons, and two additional buckets for every 100 tons, above 600, subject to a maximum number of 50 in any vessel. One-half of the number of such buckets shall be kept constantly hanging up on the quarter-deck or other convenient place.

36. **Measures during a fire.**—When a fire has broken out in any vessel the officers in charge of all vessels in neighbouring moorings or anchorages, shall furl their awnings, get their force-pumps ready for use and prepare for shipping their cables and chains, seeing specially that the pins of the shackles can be immediately knocked out.

37. **Careless discharge of steam prohibited.**—All vessels in Port shall adopt sufficient precautions and guards to prevent injury to persons or goods through the discharge of steam from any part of the vessel.

38. Beams and hatchways to be secured.—When cargo is being loaded into, or unloaded from a vessel through any of her hatchways, whether on deck or below, the longitudinal (fore and after) and athwartship beams and hatchway covers of such hatchways shall be secured in such a manner as will effectually prevent them from falling into the hold.

39. Precautions when working in bilges, etc.—Masters of vessels requiring work to be performed in bilges, boilers and double bottoms shall take all necessary precautions to ensure that working in such places is free from all danger before the men are sent into them.

40. Restriction on small craft.—No inland steam vessel, small craft or boat other than a boat carrying the agent or his representative or a duly authorised official shall proceed alongside any sea-going vessel for the purpose of taking in or discharging passengers or cargo until the vessel has hoisted International Code Flag "A" on the triatic stay. This flag shall be hoisted by order of the Assistant Harbour Master in charge after he has finished with the engines and moored the vessel.

41. Restriction on employment of European seamen.—No Master or Officer for the time being in charge of or doing duty on any vessel shall, from the 1st day of April to the 31st day of October inclusive, employ or cause to be employed any European seamen or apprentice in cleaning or painting between the hours of 9 a.m. and 4 p.m. necessitating the direct exposure of such seamen or apprentice to the rays of the sun.

42. Engine power of tugs.—No vessel shall be moved within the Port unless the tug or other agency by which such vessel is to be moved shall, in the opinion of the Deputy Conservator or Harbour Master, be sufficiently powerful for the purpose.

43. Use of steam, whistles or sirens.—No sea-going vessel or inland steam vessel or small craft shall, within the limits of the Port, sound her whistle or siren when lying at moorings, at a ghat or at anchor except as a signal of distress. The tying down of the lever of a steam whistle thereby allowing it to sound continuously is strictly prohibited.

44. Use of searchlights.—The use of searchlights on board any sea-going vessel of the burden of 200 tons or upwards whilst in the Port of Calcutta or in any of the navigable channels leading to the Port to which the Indian Ports Act XV of 1908 applies, is strictly prohibited except in special circumstances and by the direct orders of the Pilot, the Harbour Master, or such other Port Official as may be duly empowered to give such orders.

Inland steam vessels are permitted to use searchlights for navigational purposes but in no circumstances shall a searchlight be directed on the bridge of any vessel under weigh

45. (a) Sufficient crews for sea-going vessels.—No sea-going vessel shall, without such license as is hereinafter mentioned, be afloat within the Port without having on board a crew of not less than the number set forth in the schedule of crews prescribed in rules 76 and 77

(b) Power to license smaller crew.—Whenever it shall appear to the Commissioners that any sea-going vessel may, without danger to other vessels, be afloat without carrying such crew as is set forth in the second schedule hereto, it shall be lawful to the Commissioners, if they shall think fit, to grant by the hand of the Chairman, in the Form A in the second schedule hereto, a license which may be made determinable on the breach of any conditions therein contained; and which shall during its continuance exempt the vessel from the provisions of rule 45 (a).

46. Power to revoke license.—It shall also be lawful for the Commissioners, by a writing under the hand of their Chairman in the Form B in the second schedule hereto, to revoke such license, and from and after the publication of such revocation, which shall be effected by posting a copy thereof upon some conspicuous part of such vessel, the provisions of rule 45 (a) shall apply to such vessels as if no such license had ever been granted.

47. No. 13604P. —2nd December 1933.—In exercise of the powers conferred by sub-section (1) of section 7, sections 10 and 12, sub-section (2) of section 14 and section 22 of the Port Haj Committees Act, 1932 (XX of 1932), the Governor in Council is pleased to make the following rules, namely—

Rules.

1. These rules may be called the Calcutta Port Haj Committee Rules, 1933.
2. In these rules unless there is anything repugnant to the subject or context—

- (i) "The Act" means the Port Haj Committees Act, 1932.
- (ii) "Candidate" means any person who has been duly proposed and seconded for a seat on the Committee.
- (iii) "Committee" means the Port Haj Committee of Calcutta constituted under the Act.
- (iv) "Counting of votes" includes all operations involved in the counting of votes at an election of the Committee under the Act.
- (v) "Election" means an election held under the Act.

Part I—Rules under section 7.

3. Electoral roll for the Calcutta Corporation constituency under clause (b) of sub-section (1) of section 4 of the Act shall be prepared and maintained by the Chief Executive Officer, Calcutta Corporation, who shall also act as the Returning Officer of this constituency.

Electoral roll for the general constituency under clause (c) of the said sub-section of the Act shall be prepared and maintained by the Registrar, Political Department, who shall also act as the Returning Officer of this constituency.

4. Any person may be nominated as a candidate for election subject to rules made under clause (a) of section 10 of the Act.

5. The Local Government shall appoint for each constituency a date for the nomination of candidates and shall publish such date in the *Calcutta Gazette*.

6. On or before the date so appointed for the nomination of candidates, each candidate shall either in person or by his proposer and seconder together, between the hours of 11 o'clock in the forenoon and 3 o'clock in the afternoon deliver to the Returning Officer a nomination paper completed in the form annexed to these rules and subscribed by the candidate himself as assenting to the nomination and by two persons as proposer and seconder whose names are registered on the electoral roll of the constituency.

7. The Local Government shall appoint a date for the scrutiny of nomination and on such date the Returning Officer shall give to the candidates or their representatives all reasonable facilities for examining the nomination papers of all candidates. The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination and prepare a list of valid nominations.

8. (1) If the number of duly nominated candidates is not greater than the number of vacancies, all such candidates shall be declared to be duly elected.

(2) If the number of duly nominated candidates is greater than the number of vacancies, a poll shall be taken and the Returning Officer shall, on or before the date fixed in this behalf by the Local Government, send by registered post to each elector a ballot paper, in the form annexed to these rules, together with an intimation of the date appointed by him for the counting of votes and shall enter on the counterfoil of each ballot paper the name of the elector to whom the ballot paper is sent.

9. An elector shall obtain the attestation of his signature, but not of his vote, by a Magistrate, exercising first class powers, or a Justice of the Peace or any head of a department under Government to whom he is personally known, or to whose satisfaction he has been identified. He shall then return his ballot paper to the Returning Officer after recording his vote thereon in accordance with the instructions on the ballot paper. The ballot papers which are not received by the Returning Officer before 5 p.m. on the day preceding the day fixed for the counting of votes shall be rejected.

10. The Returning Officer shall appoint a date, time and place for the counting of votes and shall give notice thereof in writing to the candidates. On the day and at the time and place so appointed he shall—

(a) after scrutiny, separate the ballot papers which he deems valid from those which he rejects, endorsing on the latter the word "rejected" and the ground of rejection;

(b) count the votes given to each candidate, and declare the candidate or candidates with the largest number of valid votes to be elected.

11. Where on the counting of votes under rule 10, an equality of votes is found to exist between any candidates and the addition of one vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

12. Upon the completion of the counting of votes, the Returning Officer shall prepare and certify a return setting forth—

- (i) the number of valid votes given for each candidate;
- (ii) the number of votes declared invalid and rejected;
- (iii) the names of the persons declared elected;

and submit the return to the Government of Bengal in the Political Department.

13. (1) If any person is elected by more than one constituency, he shall by notice in writing signed by him and delivered to the Returning Officers of both the constituencies within two days from the date of declaration of the result of such election, choose for which of these constituencies he shall serve and the choice shall be conclusive.

(2) When any choice for any constituency has been made, his election by the other constituency shall become void and the Returning Officer of this latter constituency shall then in the place of such candidate declare duly elected the candidate who has secured the largest number of valid votes among the candidates who has failed to secure the election and if there be no such candidate to be declared elected, the Local Government shall call the constituency to elect another person.

(3) If the candidate does not make the choice referred to in sub-rule (1) of this rule, the election of such person shall be void and the Returning Officer of each of those constituencies shall in the place of such candidate declare duly elected the candidate who has secured the largest number of valid votes among the candidates who has failed to secure the election and if there be no such candidate or candidates to be declared elected, the Local Government shall call upon the constituency or constituencies concerned to elect another person or persons.

14. The elected members shall co-opt at a meeting four members preferably from among the elected Muslim members of the district boards in Bengal subject to the rules framed under clause (a) of section 10 of the Act.

Part II—Rules under section 10.

15. A person shall not be eligible for election, co-option or nomination as a member of the Port Haj Committee in Calcutta if such person—

18. (1) The Local Government may remove an elected or co-opted member on the ground of misconduct in the discharge of his duties if the removal is recommended by a resolution of the Committee passed at a special meeting called for the purpose and supported by the votes of two-thirds of the members of the Committee.

(2) The Local Government may remove any member—

- (i) if he refuses to act or becomes incapable of acting or is declared insolvent or if after his election as member, he is convicted of an offence which in the opinion of the Local Government involves moral turpitude; or
- (ii) if he absents himself from three consecutive meetings of the Committee except on account of illness or any other cause approved by the Committee and the Government; or
- (iii) if he is considered to be unsuitable in the opinion of the Local Government.

19. If any nominated, elected or co-opted member is, by reason of his death, resignation or removal, unable to complete his full term of office the vacancy so caused shall be filled by the nomination, election or co-option of another person as the case may be. The person so nominated, elected or co-opted shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office.

Provided that the Chairman shall not exercise any power which is directed to be exercised by the members at a meeting.

The Committee at a meeting may delegate to the Executive Officer all or any of the powers of the Committee and upon such delegation the Chairman shall cease to exercise the powers so delegated to the Executive Officer.

The Chairman shall have authority to make appointments to posts carrying a pay not exceeding Rs. 75 per month, subject to the approval of the Committee.

22. (1) An elected Chairman may resign by giving notice in writing of his intention to do so before the members at a meeting and on such resignation being accepted by the members at a meeting the Chairman shall be deemed to have vacated his office.

(2) An appointed Chairman may resign by notifying in writing his intention to do so to the Local Government, and on such resignation being accepted shall be deemed to have vacated his office.

23. (1) A Chairman or Vice-Chairman shall be removeable by Government at any time if a no-confidence motion or a vote of censure is passed against the Chairman or the Vice-Chairman, as the case may be, by not less than two-thirds of the members at a meeting specially convened for the purpose.

(2) A Chairman or Vice-Chairman shall be removed from office if he becomes disqualified under these rules from being a member of the Committee.

(3) The Local Government may at any time remove a Chairman appointed by it, or elected by the Committee if, in its opinion, he is considered unsuitable.

24. If any Chairman is, by reason of his death, resignation or removal, unable to complete his full term of office, the vacancy so caused shall be filled by the election or appointment of another person as the case may be. The person so elected or appointed shall fill such vacancy for the unexpired remainder of the term for which such Chairman would otherwise have continued in office.

(2) The Executive Officer, other officers and servants appointed by the Committee, shall not be suspended, discharged, or dismissed unless such suspension, discharge or dismissal is recommended by a resolution of the Committee passed at a special meeting called for the purpose and supported by the votes of two-thirds of the members of the Committee.

(3) The Executive Officer, other officers and servants of the Committee appointed by the Government, shall not be suspended, discharged or dismissed unless such suspension, discharge or dismissal is recommended by a resolution of the Committee passed at a special meeting called for the purpose and supported by the votes of two-thirds of the members of the Committee and the reason for such suspension, discharge or dismissal is considered by the Local Government to be cogent and satisfactory and the resolution approved by the Government.

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

**BENGAL LEGISLATIVE COUNCIL
DEPARTMENT.**

NOTIFICATION.

No. 4076L.C.—5th December, 1933 —The following report of the Select Committee on the Bengal Cess (Amendment) Bill, 1933, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Cess (Amendment) Bill, 1933.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Cess (Amendment) Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 16th August, 1933, have the honour to submit this our report with the Bill as amended by us annexed. All matter omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter inserted has been underlined.

The Bill was published in English in the *Calcutta Gazette* of the 27th July, 1933.

2. We do not consider that the Bill has been so altered as to require republication.

3. The Committee met for the first time at Darjeeling on the 9th October, 1933 and concluded its sittings on the 14th idem.

4. The changes made in the Bill are as detailed below:—

Clause 2.—We have omitted this clause as being unnecessary.

Clause 3.—We have made certain drafting changes in this clause which have been necessitated by the omission of clause 2.

Clause 5.—We have omitted this clause as being no longer applicable in view of certain changes made in proposed Chapter VIIA.

Clause 6.—We have omitted proposed section 45 (1) and inserted a new sub-section in its place extending the benefits of the rebate to tenure-holders and to cultivating *rai-yats*, provided that the annual cess payable amounts to fifty rupees or more.

In proposed section 45 (2) we have increased the period within which payments of road cess or public works cess can be made to the Collector without penalty from fifteen days to thirty days from the date on which the same becomes due.

Clause 8.—In proposed section 51A (2) we have inserted a limit within which a demand for information asked for in proposed section 51A (1) shall be complied with.

Clause 11.—We have omitted clause 11 (e) as being unnecessary and made consequential drafting alterations in clauses (c) and (d).

Clause 14—Chapter VIIA.—We have made a drafting alteration in the heading of this new chapter.

Proposed section 107A.—We have substituted a new proviso for the proviso in proposed section 107A (1) of the Bill as introduced providing—

(1) in the case of a valuation or revaluation made under the provisions of new Chapter VIIA that it should not take effect till 10 years after the last valuation or revaluation under the chapter;

(2) in the case of a valuation or revaluation not made under the provisions of the new Chapter VIIA, then not before the expiration of five years from the date of such valuation or revaluation.

Proposed section 107B.—We have made certain drafting alterations in the definition of “acreage rate” in proposed section 107B (1).

A clerical mistake has been corrected in proposed section 107B (7) (ii).

We have added a definition of "farmer of an estate" in proposed section 107B (8A) as being necessary.

In the *Explanation* to the definition of "rent" in proposed section 107B (11) we have increased the period from three years to five years.

Proposed section 107C.—The important changes made in this section are as follows:—

(1) In proposed section 107C(2)(b)(i) we have omitted "forests" from the lands which shall be cess-free under that section and have by the insertion of section 107C(3)(ii), left them to be dealt with under Chapter V.

(2) We have inserted "unculturable" before "bi" in proposed section 107C(2)(b)(i) to make the meaning clearer.

The other changes made in the proposed section are of a drafting character.

Proposed section 107D.—We have, by a majority, reduced the maximum acreage rate from one-fifth to one-sixth of the gross produce per acre.

In proposed section 107D(2)(iii) we have increased the period from "three" to "five" years.

By the insertion of proposed section 107D(2)(b) we have also, by a majority, restricted the acreage rate to a figure which shall not increase the total cess demand in a district by more than 20 per cent

In proposed section 107D(4) we have increased the figure of the acreage rate of certain lands referred to in the sub section from ten to twenty rupees per acre.

The other minor changes are of a drafting character.

Proposed section 107E.—We have substituted for clauses 107E(1)(a) and (b) new clauses which limit the discretion of the Collector, in determining the cess-free lands referred to in the latter part of clause (a) and in clause (b) to lands and classes of lands which he considers to consist of unculturable waste. We have also removed the obligation to prepare a list under clause (b) in respect of every village. "Forests" have been omitted from the section to be left to be dealt with under Chapter V

Proposed section 107F.—We have re-drafted proposed section 107F(1) so as to provide that the Collector shall give his reasons for his proposals specified under clauses (a), (b) and (c), and not only in regard to (b). Whether the reasons are to be at length or otherwise, we have left to the discretion of the Collector.

The changes made in proposed section 107F(2) are more or less of a drafting character.

Proposed section 107G.—We have re-drafted proposed section 107G(2) to make the intention more clear.

A clerical mistake has been corrected by the substitution of the word "cess" for "rent".

Proposed section 107-I.—The changes made in this section are mainly of a drafting or consequential character.

Proposed section 107J.—Two slight drafting changes have been made in proposed section 107J(1) and (2), second paragraph.

Proposed section 107-O.—The changes made in this section, in subsections (3) and (4) are of a drafting character to make the intention more clear.

Proposed section 107R.—Owing to the great importance we attach to the rules to be made under proposed section 107R(1)(h), we have inserted a proviso that these rules shall be made subject to the condition of previous publication.

Proposed section 107S.—We have added two new clauses (c) and (d) as being necessary. The other changes are of a purely drafting character.

N.B.—The signatures of Khan Bahadur M. Azizul Haque, M.L.C and Mr A K Fazlul Huq, M.L.C., had not been received up to the time of printing this report

Joint minute of dissent by the Hon'ble Sir P. C. Mitter, K.C.S.I., C.I.E., Mr. H. C. V. Philpot, Mr. W. H. Nelson, Mr. J. B. Kindersley and Rai Mahendra Nath Gupta Bahadur.

Clause 14: Proposed section 107A (1), provisos (i) and (ii).—We would prefer to retain the period of 5 years in both cases. If, however, the Council decides against the amendment suggested by a majority of the members of the Select Committee in proposed section 107D (2) (b), we would not object to the amendment contained in the provisos to section 107A (1).

Proposed section 107D(2) (a).—We are opposed to the reduction of the maximum from 1/5th to 1/6th. The maximum must be one which is applicable to every district in which the new Chapter VIIA will be in force. In some of the less fertile districts a maximum of 1/6th may have the result of limiting the cess demand to a figure which is lower than the existing cess demand even though in that particular district the cess demand is not too high.

Proposed section 107D(2)(b).—We are also opposed to the limitation of the increase of the cess demand of a district at any revaluation to 20 per cent. more especially if the next revaluation cannot take place for 10 years.

Minute of dissent by Mr. W. H. Thompson, M.L.C.

Clause 6.—There is no justification for such a rebate except as a business proposition. It should be offered only to such an extent as is justified by the advantage which will be obtained through making collection expeditious. Five per cent. is too much to give away especially when times are not as hard as at present. I would prefer to frame the clause to give the Collector, with the sanction of the Local Government, power to offer such rebate for such time and at such rate, not being more than 5 per cent., as he may think fit.

Clause 14: Proposed section 107D (2) (b).—Some districts are economically progressive, others are not. If the economic progress of a district is such that it can afford to bear an increased road cess, it should be permitted to have the additional amenities which the correspondingly increased expenditure by the District Board will provide. It is, therefore, a mistake to place an arbitrary limit of 20 per cent. on the permissible increase of road cess at a revaluation.

There is a much stronger objection to the application of this 20 per cent. limit to the next revaluation in Burdwan, Hooghly, Howrah, 24-Parganas, Rangpur and Dinajpur where the existing valuation is based on returns which will certainly prove to have been incomplete.

Proposed section 107E.—The modification of sub-section (1) (b) is an improvement, but I think the retention of this clause, even as it stands, will defeat the object of the Committee, which was to make it easy for a Collector to exclude types of unprofitable waste land, not recorded as individual classes in the record-of-rights, without rendering him liable to be flooded with applications for exclusion of odd pieces of land which he could not deal with except by local enquiries. One acquainted with the Rajshahi district, for example, acting on an instruction from the Collector, could quite easily pick out the old useless tanks on the village maps without local enquiry recognising them by their having no *bustees* round them, by their being orientated and oblong instead of square, and by the wideness of the banks. A much more practically useful clause than clause (b) would be:—

“When it appears to a Collector that there is a type or types of uncultured waste land in the district or in part of the district not recorded as a separate class in the settlement record which should in his opinion be cess-free, he may prepare a list of plots of such type or types and the plots in the list shall be cess-free.”

Proposed section 107-I (1) (c).—There are very few transfers of land from one tenure to another, and as mutations are not difficult to follow, there will be little difficulty in putting the statements into the hands of the persons interested, but, in the case of *rai-yati* and under-*rai-yati* holdings, a few years after the record is complete it is found that transfers and mutations are innumerable. The law should be made clear that it is not the Collector's duty to take any cognizance of such changes in the case of *rai-yati* holdings, and I would, therefore, prefer to leave clause (c) as it was and add after (c) a separate clause (d) to the section as follows:—

“(d) In respect of every *rai-yati* and under-*rai-yati* interest, entered in the record-of-rights a postcard or other notice stating the annual value of the lands shown in the record as appertaining to such interest and addressed to the person named in the record as the possessor of that interest.”

Minute of dissent of Raja Bhupendra Narayan Sinha of Nashipur, M.L.C.

Clause 6.—In the original Bill the rebate of 5 per cent. had been proposed to be allowed only to the holders or farmers of an estate directly held under the Government. That is, only the *zamindars* are to enjoy this concession.

The Select Committee has modified the clause by allowing this privilege to all grades of persons paying cess. This is an improvement and is welcomed by all. But having regard to the fact that this concession has been extended to the tenants as well, it will not be much appreciated by them unless the rate of rebate be increased. The tenants' share of cess is invariably very low, and if 5 per cent. rebate be granted, they will be tempted to avail themselves of this opportunity. The object of this clause will be frustrated. The main object is to encourage punctual payment by granting rebate. If the sum is not a much appreciable amount, naturally, no one will be allured to get the full benefit.

Further, on the *zamindars'* point of view, I beg to say that as the law stands, the *zamindars* have to pay cess almost a month in advance even if the payment by the tenants be punctually made. By way of illustration, I beg to point out that the first date for the payment of cess after the valuation or revaluation is on the 28th June corresponding to 12th *Ashadh*; whereas the first payment of cess by a tenure-holder or a tenant is on the 1st *Shravan*. Thus there is a difference of 18 or 19 days. In addition, it takes at least 10 days for the *mufassal kutchary* to make over the collection to the *Sadar* for manifold reasons. Thus, even if the punctual payment be made by the tenants, the *zamindars* have to pay in one month in advance. Thus, they have to suffer with respect to interest automatically for a month. So by way of collection charges the *zamindar* can claim the usual rate allowed by the Court.

Moreover, there are bad debts which are never realised, even through the help of the Court, and this is about 20 per cent. approximately. It will be a sheer injustice if the landlords have to suffer for the debts of the others. Considering all these circumstances, I propose that 12½ per cent. rebate be allowed.

Clause 8.—The object of this clause, as stated by the Hon'ble Member-in-charge, is to ascertain the particulars of the rent-free holders, especially their addresses, so as to facilitate the collection of the cesses. With this object in view, it has been proposed that the rent-free holders will furnish the particulars on receiving the demand notices, failing which they will be penalised. But in practice it has been found that even where the record-of-rights has been completed, the addresses of rent-free holders cannot be found even if the addresses are written according to the settlement record.

Thus, unless the proper addresses be ascertained, the object of this clause will be frustrated, as it will be impossible to send the notices of demand. There will be unnecessary trouble and labour on the part of the Collectorate to issue demand notices without proper addresses which will be undelivered and returned back invariably. The work of the Collectorate will be hampered and increased for nothing and no effective purpose will be served.

I, therefore, suggest a clause be added after the words "to give" in the proposed section 51A, *e.g.*, "within three months from the date of the publication of this Act in the *Calcutta Gazette* or within three months from the date of any subsequent changes and." This will simplify the matter. The tenants will have no fear of a demand notice or of being penalised in future, as they will know beforehand what they will have to do. There will practically be no occasion to send demand notices or to penalise the rent-free holders. At the same time the main object of this clause will be secured fully.

Further, I may add that a similar provision to notify any changes in the proprietary right of a land is provided in the Land Registration Act.

Clause 14: Proposed section 107D (2) (b).—I would suggest that in case where the revaluation has been made after the record-of-rights, the increment should not be more than 10 per cent of the existing total assessment. But where the valuation has not been done after the record-of-rights, I do not like to make any restriction.

My reason for this suggestion is that it is found invariably that where the valuation had been made after the record-of-rights, the increment was more than 50 per cent. of the previous assessment. If the limit of 20 per cent. increment be provided, it will be too hard for the rate-payers.

Minute of dissent by Khan Bahadur Maulvi Alimuzzaman Chaudhuri, M.L.C.

Clause 6.—I am not in favour of granting rebate. It will not give any appreciable benefit to the revenue-paying or rent-paying interests; at the same time the income of district boards will be crippled. It also gives a preferential treatment to a certain class of interests only. It was found that the provisions could not be extended in general as it will not be practicable. This clause should have been omitted.

**Joint minute of dissent by Mr. Sarat Kumar Roy, M.L.C., and
Mr. Sateswar Singh Roy, M.L.C.**

With regard to clause 6, proposed section 45 (1), we feel that the percentage of rebate as suggested in the report of the Select Committee is much too small to prove any effective incentive to regular payment of cesses or to cover the loss which the landlords generally incur on account of want of realisation of cesses in time. On these two grounds we press for rebate of 15 per cent. but by way of compromise we now propose 12½ per cent. of which half may be payable to the tenants. We hope that it would be acceptable to the House.

Minute of dissent by Babu Satish Chandra Ray Chaudhury, M.L.C.

I sign the report subject to this note of dissent:—

The Select Committee have extended the benefit of the rebate system to every grade of cess-payers, but at the same time have fixed a minimum cess payable for each estate, tenure or interest to entitle the holder to the benefit of the rebate. This will disentitle a landholder who may have to pay in the aggregate cess much above the minimum but who pays less than the minimum for each estate held by him. Such landholders would now get nothing for their trouble. The Select Committee amendment has made their case worse. As for the tenants, the benefit assured to them is quite illusory, as few tenants in each estate pay Rs. 50 as cess for a single holding. I would, therefore, either do away with the minimum altogether, restoring the principle in the original Bill, or make the benefit of the rebate available to all who in the aggregate pay a minimum cess of Rs. 20 for all their estates, tenures or holdings as the case may be.

Clause 14: Proposed section 107D(1).—The intention underlying this clause seems to be to make the units as large as possible, as the Collector has been given a discretion as to whether a district should be divided into units or not. This will defeat the main avowed object of the Bill which is to remove inequalities in taxation between tenant and tenant or between a tenant and his under-tenant. If the units are made too large embracing several fields or thanas without regard being had to the character and classification of the lands comprised in the same, the average valuation and rate based on the same will result in grave and serious prejudice to the holders of lands of inferior quality, thus introducing an element of grave inequality. So long as a man holds all classes of land or the best classes only, he will have little cause of complaint, but there are many fairly big areas where the lands are of such inferior quality that the holders must need suffer if they are to pay according to a calculation arrived at by working an average with the best lands of the neighbourhood. Some hardship and injustice may be inevitable, but any injustice on a wide scale is very much to be deprecated. I would, therefore, make the division of the district into suitable units obligatory and would make the units ordinarily correspond with the areas of the union boards, special cases requiring special treatment.

In proposed section 107D(2)(i) and (ii) for "agricultural produce generally" and "all agricultural produce" I think "staple food crops" should be substituted to simplify investigation and to avoid unnecessary harassment. Nowadays, whenever there is a rise in the price of one agricultural produce, e.g., jute, there is a corresponding rise in the price of others. Besides, there is much less fluctuation in the price of paddy from year to year than in the case of a commercial crop like jute. So this should be taken as the standard for the purpose of valuation of lands.

In proposed section 107E(1)(b), the proviso restricts the discretion of the Collector too much, leaving no remedy for cases in which large areas have been rendered more or less valueless since the last record-of-rights operation, owing to natural or other causes, and yields little or no profit after meeting the expenses of cultivation, although they cannot be called unculturable waste in the true sense of the words. As the proposed method of assessment means a direct levy on the land, every circumstance relating to the capacity of the lands to pay should be taken into consideration.

A definite period of publication should be provided for the proposed section 107F to enable objections to be made in the first instance to the Collector before he makes his order final.

Lastly, I think a 10 per cent. increase of income should be the maximum limit to be reached in any revaluation in those districts where there has been a revaluation after the record-of-rights.

Minute of dissent by Maulvi Tamizuddin Khan, M.L.C.

I differ from the majority of the members of the Select Committee on one fundamental point. The Bill if passed into law will be yet another anti-tenant measure on the statute book, and in its operation will do great injustice to an overwhelming number of the breadwinners of this province.

The main object of this measure is said to be the introduction of a more equitable principle of assessment of cess than what is in vogue at present. This object will never be achieved except within a narrow circle, if at all. As far as the relative liability of the landlord and the tenant is concerned, the measure far from bringing about an equitable adjustment will not only perpetuate the existing inequity, but what is worse, will deprive the cultivating *raiya*s of the little privilege they enjoy under the present law. Section 41 of the present Cess Act lays down the relative liabilities of *zamindars* (holders of estates), *tenure-holders* and cultivating *raiya*s (*raiya*s who cultivate their own lands and have not sublet the same) as regards the payment of cess. Assessment is made on the "annual value" of the lands at a rate not exceeding one anna per rupee. At present the full rate of one anna is levied in all the districts. "Annual value" is defined as follows in section 4 of the Act: "'Annual value of any land, estate or tenure' means the total rent which is payable, or if no rent is actually payable, would, on a reasonable assessment, be payable, during the year by all the cultivating *raiya*s of such land, estate or tenure or by other persons in the actual use and occupation thereof." To illustrate the system of assessment now in vogue under the present law, let me take a very simple case of a *zamindar* whose estate consists of 4 acres of land which he has entirely let out to cultivating *raiya*s at a total rent of Rs. 12 and there is no subletting by these *raiya*s to under-*raiya*s. The total cess payable by this estate is (12×1 anna) 12 annas of which the *raiya*s have to pay half, i.e., 6 annas, and the landlord has to pay the remaining half if his estate is revenue-free. If he pays a revenue, his share of cess is a little reduced, as he is entitled in that case to a deduction to be calculated at the rate of half an anna ($\frac{1}{2}$ anna of the rate at which the cess is levied in the district in question) per rupee of revenue that he pays. Now if the *zamindar* in this case pays a revenue of Rs. 3, he has to pay (6 annas— $3 \times \frac{1}{2}$ annas) $4\frac{1}{2}$ annas as his share of the cess. The *raiya*'s share, however, remains 6 annas as above, i.e., half of the total maximum cess (annas 12) leviable on this estate. This is exactly what is laid down in section 41(2) of the Cess Act which runs as follows: "Every cultivating *raiya* shall pay to the person to whom his rent is payable one half of the said road cess and public works cess calculated at the said rate or rates respectively (i.e., the rate or rates which may have been determined for the year in question, such rate being now determined in all districts at the maximum rate of one anna per rupee) upon the rent payable by him or upon the annual value ascertained under the provisions of section 24 or 25 of the land held by him." In the case of cultivating *raiya*s who have not sublet their holdings, the provisions of sections 24 and 25 are seldom applied. So the present law is that the cultivating *raiya*s have to pay one half of the total cess and no more. The proposed legislation is taking away this safeguard of the cultivating *raiya*s, because there is no provision in the Bill limiting the cess to be paid by cultivating *raiya*s to any particular proportion, and it is apparent that under the scheme contemplated in the Bill the burden on the shoulders of this class of *raiya*s will be tremendously increased. The *raiya*s who will be thus adversely affected are mostly occupancy *raiya*s who cultivate their lands themselves and have not sublet their holdings to under-*raiya*s. They are the pick of the tenantry of this province, and it will be highly regrettable if the already heavy burden on their shoulders is unduly increased.

This legislation will give no relief to the tenantry as a whole. It will simply lighten the burden on the shoulders of certain classes of tenants, viz., under-*raiya*s and "cess-tenure holders" (*raiya*s who have sublet their holdings and are treated as tenure-holders by the administrators of the Cess Act), but it will do so by transferring that burden entirely to the shoulders of cultivating *raiya*s. Again, at each revaluation whatever increase in the total cess demand of a district or unit of a district is made will almost wholly fall on the shoulders of this class.

The scheme proposed is this: An acreage rate will be determined by the Collector for a district or part of a district and according to the decision of the Select Committee, such rate may extend up to one-sixth of the value of the gross produce per acre of ordinary agricultural land in the area. The annual value of a land will be the acreage rate multiplied by the area, and the cess will be levied at the rate of 2 pice (6 pice) per rupee in the maximum on such annual value. Now as regards the question of an estimate of the value of the average gross produce of the province let me quote a few lines from a note circulated to the members of the Council from the Revenue Department a few months ago. The note says: "From the statistics of 11 districts of which the final reports have been published, it appears that, to state generally, the average gross produce of cultivated lands is about Rs. 55 per acre, varying from Rs. 47 in Bankura to Rs. 75 in Nonkhali."

I shall now try to illustrate by example the respective incidence of cess upon cultivating *raiya*s under the present system *vis-a-vis* the proposed system. Before I do this I would like to state that the total revenue paid by the *zamindars* of the province is said to be about 2 crores and 15 lakhs and the total rents collected by them as far as occupancy *raiya*s are concerned is said to be about 8½ crores of rupees. Therefore, for every rupee of revenue paid by a *zamindar* he gets Rs. 4 as rent from such *raiya*s. Again, it is stated in the note referred to above that "the average rate of rent of the *de jure* (Bengal Tenancy Act) *raiya* is about Rs. 3 per acre." The example that I have already cited of a *zamindar* of 4 acres of land, paying a revenue of Rs. 3 and getting Rs. 12 as rent from his *raiya*s who cultivate their own lands, and have not sublet their holdings, is, therefore, a typical one. We have already seen

that the total cess to be paid according to the present system, by all the cultivating *rai-yats* under this *zamindari* is 6 annas. Under the proposed scheme, taking the acreage rate to be Rs. 9 ($\frac{1}{2}$ of Rs. 54 which is taken to be the value of the average gross produce of an acre of land) the total cess payable from this estate will be ($4 \times 9 \times \frac{1}{2}$ anna— $3 \times \frac{1}{2}$ anna) $16\frac{1}{2}$ annas. Of this amount the *zamindar* will pay $4\frac{1}{2}$ annas as under the present system and the remainder of 12 annas will have to be paid by the *rai-yats*. That is, the *rai-yat's* share will be double of what it is at present. Even if the acreage rate is fixed at Rs. 8, the total cess will be $14\frac{1}{2}$ annas and the *rai-yat's* share will be 10 annas. Taking the acreage rate to be as low as Rs. 7 which is an extremely unlikely figure, the *rai-yat's* share will be 8 annas. These examples show to what extent the burden on the cultivating *rai-yats* will increase under the system proposed to be introduced. This was frankly admitted in the abovementioned note of the Revenue Department. One of the alternative suggestions as to the future scheme of assessment was thus considered in the note: "(3) Take a uniform rate of $1\frac{1}{2}$ pice per rupee of 'net profit' (acreage rate \times area—revenue or rent) both for the cultivating *rai-yats* and the landlords." Regarding this suggestion, the note said: "The objection to plan (3) is that it will involve a substantial increase of the burden of the cultivating *rai-yats*." If a rate of $1\frac{1}{2}$ pice per rupee on the net profit was then objectionable, one fails to understand how a rate of 2 pice per rupee now proposed has been acceptable.

The number of *rai-yats* who will be thus adversely affected is by no means insignificant. From the statistics supplied to the members of the Select Committee from the department, it will be seen that the number of holdings of *rai-yats* at fixed rates is about 8 lakhs and that of settled and occupancy *rai-yats* is about 95 lakhs. Of these 103 lakhs, about 30 lakhs have been sublet to under-*rai-yats* in part or whole. Deducting these 30 lakhs from the aforesaid 103 lakhs of holdings, we get 73 lakhs of holdings in respect of which there has been no sub-infeudation. The holders of these 73 lakhs of *rai-yat* holdings will be adversely affected and in all likelihood the burden on their shoulders will be doubled. They are undoubtedly the flower of the Bengal tenantry and the treatment that is proposed to mete out to them will certainly bear its evil fruit. This is the most conscious and vocal class of tenants in the province. It is highly undesirable to poke them any further.

If this Bill is passed into law, it will most effectively stand in the way of whatever little chance yet remains, of enforcing the Rural Primary Education Act. If the cess burden of this class of tenants is now increased in the manner proposed, it will be unthinkable to impose another equally heavy burden on them under the Education Act. The Primary Education Act will be successfully strangled if the proposed measure is passed into law.

There is another obvious and fundamental objection to the Bill. During the last 50 years the cess demand of the province has almost doubled. There is no doubt that the cess will go on increasing almost in every district at each new valuation. What justification is there that the burden of the increase will wholly fall on the shoulders of cultivators and that landlords will go entirely scot-free? It is glibly said that everyone is going to be assessed on his net profit. It is nothing but camouflage to say that the *zamindar's* net profit consists only of the difference between the rents that he receives and the revenue that he pays, as it is taken to be by the proposed enactment. The Bill altogether excludes from consideration all the other earnings of a *zamindar* in calculating his net profit.

Such an ill-conceived, unjust and inequitable measure does not deserve to be placed on the statute book.

I refrain from mentioning here the other objections I have to the majority report of the Select Committee as my note of dissent has already become very lengthy. I reserve the right to mention these on appropriate occasions during the stages the Bill has yet to go through.

Minute of dissent by Mr. Mukunda Behary Mullick, M.L.C.

I sign the Report of the Select Committee subject to this note of dissent:—

I think that clause 6, proposed section 45 (1) should be deleted. The liability to pay cess is a statutory obligation for anyone holding cess-paying lands, and therefore I do not think that there ought to be a rebate granted to any of them. The reason applied to the rebate granted in some business concerns has no application to the case of cess. Moreover, the cess is the income of the district board; I think that the same ought not to be reduced in any way.

In clause 6, in proposed section 45(2) the period of limitation for the recovery of unrealised cesses ought to be three years and there is no reason to make it as long as six years.

Minute of dissent by Khan Bahadur Muhammad Abdul Momin, M.L.C.

It is apprehended that if the acreage rate be fixed on the basis of the value of all kinds of produce of the lands within a local area it will operate harshly on such tenants

who own only "*ek-fashi* lands" (the number of such being over 50 per cent. in all districts) also the ascertainment of value of each crop will be difficult and indefinite. I, therefore, suggest that the value of only staple food crops be taken as the basis irrespective of what the tenants actually grow. The agricultural prosperity or otherwise in Bengal is and has always been gauged in terms of paddy.

2. As it is likely that individual districts or cases when rents are low the cess calculated on the acreage rate will go up considerably, there ought to be a safeguard that no "individual tenant's cess should go up by more than 10 per cent. over his present cess."

3. I am opposed to the proposed system of payment of rebate. It is against the principle of payment of all existing public demands and in the case of cess will lead to unnecessary complication without serving any useful purpose.

Minute of dissent by Mr. N. K. Basu, M.L.C.

I dissent from the proposed changes in clause 6, proposed section 45(I) and clause 14, proposed section 107D(2)(b). I reserve my reasons for the Council.

Minute of dissent by Rai Sahib Panchanan Barma, M.B.E., M.L.C.

Clause 6: Rebate.—In the original Bill, rebate was proposed to be granted to the owners of estates only. But the Select Committee extended the grant of rebate to the owners of estates or tenures and to the cultivating *raiya*s, the principle on which the rebate is based being to induce payment of the instalment of cess on or before the due date which is applicable to all the cases.

I think, in the proviso (a) to the proposed section 45(I) the phrase "at one time" should be omitted. The question that matters is that the instalment is paid "on or before the due date." That condition being fulfilled, it is immaterial whether the instalment is paid at one time or more, rather it will give facility for payment to the payer, if he be allowed to pay at more than one time.

Proviso (b) to the proposed section 45(I) puts great restriction on the title to get rebates. It provides that a cess-payer liable to pay an annual cess amounting to less than Rs. 50 is not entitled to get any rebate.

Now let us see the effect of this proviso on the holder of an estate, a tenure or a cultivating *raiya* holding. How are any of them going to be benefited? According to the proviso to proposed section 107H(I) the cesses, i.e., land cess and public work cess, shall be levied so as not to exceed the rate of one-quarter anna on each rupee of the annual value determined, that is, the rate of the two cesses taken together shall not exceed half anna on each rupee of the annual value.

Now what shall have to be the "annual value" of an estate or a tenure or a cultivating *raiya* holding to be liable to pay an annual cess amounting to Rs. 50? I take the rate to be not less than two pice per rupee.

To secure a cess of one rupee, the annual value of an estate or a tenure or a cultivating *raiya* holding shall have to be Rs. 32 and to secure an annual cess of Rs. 50, the annual value shall have to be Rs. $32 \times 50 = 1,600$. A rate less than two pice will require an annual value greater than Rs. 1,600.

Taking cultivating *raiya* holding first, this annual value of Rs. 1,600 is to be one-sixth of the gross produce of the holding according to proposed section 107D(2)(a). This means that a *raiya* holding to be entitled to get any rebate shall have to yield a gross produce of Rs. $1,600 \times 6 = 9,600$. But no cultivating *raiya* holding whether of one hundred or more standard *bighas* can be expected to produce so much, even though the agricultural products sell at very high rate.

Considering all these, I think that if any rebate is intended actually to be given to the cultivating *raiya*s, the amount of annual cess entitling a cultivating *raiya* to get rebate should be reduced to at least Rs. 10.

Then taking an estate or a tenure. The annual cess of Rs. 1,600 which entitles the owner to a rebate shall in these cases have to be composed of—

- (i) cess on his profit as landlord,
- (ii) cess realised from his tenants, and
- (iii) cess on the annual value of the lands under his own cultivation—that is, one-sixth of the gross produce of such lands.

So the factors composing the annual value are of three kinds and each of them may vary to different qualities. So it is difficult, except in an actual case, to make estimate of the different factors. But it is certain that a large number of owners of estates or tenures will by operation of this restriction clause be excluded from getting rebate.

Here attention is drawn to the question whether 5 per cent. rebate will suffice to create the intended inducement.

Now apart from the question of inducement for payment, the owners of estates and tenure raise the question of (i) their labour for collection, and (ii) the risk of non-realisation of cesses in some cases from their tenants. It may be said, and it is a good maxim, that they should undertake the labour and the risk for the public good in which they themselves and their tenants also are to have some share. But besides labour, they have to suffer some loss or pay something from their pocket.

It may be said, and it is sometimes a hard fact, that the landlords realise much more than what is due in cess. For such excess realisation, they ought certainly to be punished; but to put it forth as an excuse for not recognizing their trouble is to give some sort of legal sanction to illegal exactions.

Now let us view the points of the landlords closely. The amount of cess they are required to pay are composed, as have already been pointed out, of three factors:—

- (i) cess on his profit as landlord,
- (ii) cess realised from his tenants, and
- (iii) the cess on the annual value of the lands under his cultivation.

The amount of cess he is to pay for items (i) and (ii) are due directly from him and there is no question of his taking trouble or risk. The only question involved is the one of inducement of payment. The question of trouble and risk arises in connection with item (iii). Here he realises the cess from the cultivating *raiyats* or tenure-holders under him and he is to undertake some trouble for collection and risk in some cases of non-realisation.

Considering the public duty, an owner of an estate or tenure is to perform along with the trouble and risk he is to undertake in realising the cess from his tenants and paying them to the superior authorities, I would like to fix the rate of rebate at one anna and one pice per rupee, i.e., Rs. 7-13 per cent. for that portion of cesses which the landlord pays on the collection from tenants under him, i.e., for item (ii). But with respect to items (i) and (iii) the imposition is upon him personally and he is bound to pay. Taking all the facts into consideration, I think the rebate in the cess of the owners of estates or tenure should be 6½ per cent. •

In case of an hierarchy of owners between an estate and tenures under him question has not been considered. The question should be considered. But a rebate of more than 6½ per cent. on the original amount of cesses should not be allowed.

Clause 14: Proposed section 107D (2) (ii) (iii).—The term "agricultural produce" should be restricted to such produces as are mainly crops and of commercial value. There are many crops which are not taken notice of by *Grihasthas* when they are grown by their *adhivars*. These crops may have some local consumption, but they are not treated as something cultivated for purposes of getting money. Such crops have little or no commercial value. Such crops should be excluded from consideration.

Calcutta, the 30th November 1933.

Resolution on the question of creating an organisation for the study of economic problems affecting the province of Bengal.

GOVERNMENT OF BENGAL.

Commerce Department.

Commerce.

RESOLUTION No. 6159 Com.

Calcutta, the 1st December 1933.

The Government of Bengal for some time have had under consideration the question of creating an organisation for the study of economic problems affecting the province. In 1931 Sir Arthur Salter, who was then Director of the Economic and Financial Section of the Secretariat of the League of Nations, visited India and prepared a scheme for an Economic Advisory Organisation in India. He expressed the opinion that a more effective system of securing a place for non-official opinion among the elements from which Government policy is evolved should be devised, and he recommended that, in addition to a Central Economic Advisory Council, there should be an Economic Advisory Council in each province.

2. Up to the present various considerations, partly financial, have prevented the Local Government from taking action on Sir Arthur Salter's proposals; but the question of appointing a committee on the lines recommended by him has recently been revived by the local Chambers of Commerce, and after full consideration of their views the Provincial Government have come to the conclusion that, in spite of financial stringency, the time has now arrived when special machinery should be set up to facilitate co-operation between Government and representatives of outside opinion in the study of the economic problems affecting Bengal. They have therefore decided to constitute a Board of Economic Enquiry.

3. The Board will be constituted as follows :—

- (1) Chairman,
- (2) to (7) Six representatives of commerce to be nominated by the following bodies :—

The Bengal Chamber of Commerce,
The Bengal National Chamber of Commerce,
The Indian Chamber of Commerce,
The Marwari Association,
The Muslim Chamber of Commerce,
and
The Bengal Mahajan Sabha.

- (8) and (9) Two representatives of the provincial universities—one to be nominated by the University of Calcutta and the other by the University of Dacca.

- (10) and (11) Two representatives of agricultural interests.

- (12) One representative of labour.

- (13) and (14) Two non-officials interested in economic problems.

- (15) The Director of Land Records.

- (16) The Director of Agriculture.

- (17) The Director of Industries.

- (18) The Registrar of Co-operative Societies.

- (19) The Senior Professor of Economics at the Presidency College.

- (20) and (21) Two officials interested in economics and statistics.

Nos. 1, 10-14, 20 and 21 will be nominated by Government; Nos. 2 to 9 will be selected by the bodies named; and Nos. 15 to 19 will be members *ex-officio*.

4. The functions of the Board will be—

- (i) to conduct enquiries into such economic matters as may be referred to it by the Local Government; and

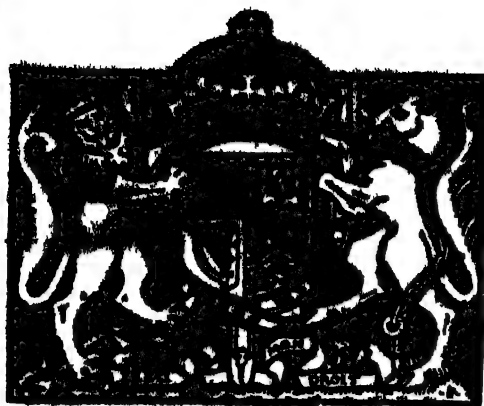

- (ii) to initiate and conduct, subject to the sanction of Government, enquiries into other economic matters (other than those referred to it by Government).

5. The Board will be provided with a Government officer as Secretary and it is proposed to place at its disposal a grant of Rs. 15,000 a year to cover expenditure on the enquiries it may be decided to undertake.

By order of the Governor in Council,

R. N. GILCHRIST,

Joint Secy. to the Govt. of Bengal.

F. R. Appendix 16.

(See Chapter I, Section XIV, rule 40-D.)

Rules for the exhibition of losses in the Government Accounts.

Rules for the guidance of the Executive Officers.

1. *Budgeting.*—Provision for losses should not ordinarily be made in the budget. If, however, the nature of the work of a department is such that some losses must be regarded

as inevitable each year, provision may be made, with the special sanction of the Finance Department in each case.

II. *Report of losses.*—With the exception noted below, any defalcation or loss of public money, departmental revenue or receipts, stamps, opium, stores, or other property, discovered in a Government treasury or other office or department, which is under the audit of the Accountant-General, should be immediately reported to the Accountant-General, even when such loss has been made good by the person responsible for it. It will usually be sufficient if the officer reporting the defalcation or loss to higher authority sends to the Accountant-General either a copy of his report or such relevant extracts from it as are sufficient to explain the exact nature of the defalcation or loss and the circumstances which made it possible. When the matter has been fully investigated, a further and complete report should be submitted of the nature and extent of the loss, showing the errors or neglect of rules by which such loss was rendered possible, and the prospects of effecting a recovery. The submission of such report does not debar the local authorities from taking any further action which may be deemed necessary.

Exception.—Petty cases, that is cases involving losses not exceeding Rs. 200 each, need not be reported to the Accountant-General unless there are, in any case, important features which merit detailed investigation and consideration.

Note 1.—Losses or deficiencies concerning buildings, lands, stores and equipment should be written off any value or commercial account that may be maintained.

Note 2.—In the case of departments where accounts have been separated from audit, a special procedure for report of losses to Accounts and Audit Officers may be prescribed by departmental authority after consultation with the Auditor-General.

III. Heads of departments should submit annually to the principal auditors concerned statements showing the extra statutory remissions of revenue and abandonments of claims to revenue sanctioned during the preceding year. For inclusion in these statements, remissions and abandonments should be classified broadly with reference to the grounds on which they were sanctioned, and a total figure should be given for each class. A brief explanation of the circumstances leading to the remission should be added in the case of each class.

The statement shall not include individual remissions below Rs. 500, and it shall be submitted by the first week of June following the year to which they relate.

Note 1.—For the purposes of these rules a “statutory” remission or abandonment of revenue or a claim to revenue means a remission or abandonment which is obligatory under the provisions of any law or rule having the force of law. All other remissions or abandonments are non-statutory.

Note 2.—Where the administrative year does not coincide with the financial year, the figures of the former may, if this prove convenient to the departmental authorities, be given in the statements.

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 1359L.—11th December, 1933.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.

**THE LICENSED WAREHOUSE AND FIRE-BRIGADE
(AMENDMENT) BILL, 1933.**

A

BILL

*further to amend the Licensed Warehouse and Fire-Brigade
Act 1893.*

WHEREAS it is expedient further to amend the Licensed Warehouse and Fire Brigade Act, 1893, in the manner hereinafter appearing,

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Licensed Warehouse and Fire-Brigade (Amendment) Act, 1933

Amendment of
section 10 of
Bengal Act I of
1893

2. In the first proviso to section 10 of the Licensed Warehouse and Fire-Brigade Act, 1893, for the words "seven hundred and fifty rupees" the words "one thousand five hundred rupees" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The intention of the framers of the Licensed Warehouse and Fire-Brigade Act, 1893, was that half the cost of the Fire-Brigade should be borne by the general tax-payers and the other half by the special interests protected by the brigade. The fees levied under the said Act have shown a progressive decline, although the cost of the Fire Brigade has gone up and it has become apparent that until the maximum limit prescribed for license fees in section 10 of the Act is raised from seven hundred and fifty rupees to one thousand five hundred rupees it will not be possible to realise half the cost from such fees.

RESOLUTION.

New Delhi, the 7th December 1933.

No. F.-7-(50)-R. I/33.—The Government of India have had occasion to examine the rule in clause (2) (b) of section V of the Administrative Instructions issued with this department Resolution No. 205-C. S. R., dated the 8th February 1924, which regulates the grant of casual leave on account of absence from duty, due to the presence of infectious diseases in the family or household of a Government servant. The rule has been found to be defective in certain respects. In the first place it gives no clear indication of the extent to which leave may be sanctioned in the circumstances mentioned; nor does it provide for such leave being prefixed to ordinary leave, when the grant of the latter in continuation is necessary. In the second place, the rule does not state clearly whether, when absence from duty exceeds the period which may reasonably be treated as casual leave, it is the excess over the period considered reasonable or the entire period of absence that should be sanctioned as ordinary leave.

2. It is considered that, though the leave granted on account of the presence of infectious diseases in the family of a Government servant is not debited in his leave account, it should be distinguished from casual leave for the reason that the latter is granted at the request of the Government servant, while the former is not. The Governor-General in Council has accordingly decided to designate such leave in future as 'Quarantine Leave.' He has also decided to limit the grant of this leave ordinarily to 21 days, this limit being increased in exceptional circumstances to 30 days. He has further decided that if absence for reasons of quarantine exceeds the maximum of 21 days, or in exceptional cases 30 days, the excess only should be sanctioned as ordinary leave and that once quarantine leave has been sanctioned as such, its character should not be changed, as a result of the grant of such ordinary leave in continuation.

3. The amendments to the rule necessary to give effect to these decisions are published in the annexure to this resolution.

ORDERED that the Resolution be published in the *Gazette of India*

A. A. L. PARSONS,

Secy. to the Govt. of India

ANNEXURE.

AMENDMENTS TO THE ADMINISTRATIVE
INSTRUCTIONS IN CONNECTION WITH THE
FUNDAMENTAL RULES.

Section 1.

Before the words "Fundamental Rule 85" under head (2) Casual Leave in this Section, the letter "(a)" shall be omitted.

For clause (b) under head (2) Casual Leave, the following shall be substituted:—

"(3) Quarantine Leave.

Quarantine leave is leave of absence from duty necessitated by orders not to attend office in consequence of the presence of infectious diseases in the family or household of a Government servant. Such leave may be granted by the head of the office on the certificate of a Medical or Public Health Officer for a period not exceeding 21 days, or, in exceptional circumstances, 30 days. Any leave necessary for quarantine purposes in excess of this period shall be treated as ordinary leave. Quarantine leave may also be granted when necessary in continuation of other leave subject to the above maximum. Except in the cases mentioned in the notes below, no substitute should be appointed in place of a Government servant absent on quarantine leave. A Government servant on quarantine leave is not treated as absent from duty and his pay is not intermitted."

The following two notes shall be inserted below the rule "(2) Casual Leave:—

"Vote 1.—In the Postal Department substitutes may be employed in the place of postmen and posted menials (other than runners) who may be granted casual leave, under the rules laid down in the enclosure to Industries and Labour Department letter No. 20-P.T.E., dated the 28th August 1926.

"Vote 2.—In the Railway Mail Service substitutes may be employed in the place of mail guards, van peons, porters and other inferior servants who may be granted casual leave, under the rules laid down in the enclosure to Industries and Labour Department letter No. Est. B. APC-66/28, dated the 11th January 1930."

Notes 1, 4 and 4-A under clause (b) under head (2) Casual Leave shall be cancelled and the existing notes shall be renumbered as Notes 1, 2, 3 and 4.

In the existing Notes 2, 4-B and 5, for the words "who is prohibited from attending his duties on account of some infectious disease in his family and" the words "on quarantine leave" shall be substituted.

In the existing Note 3, for the words "on account of some infectious disease in his house" the words "who is on quarantine leave" shall be substituted.

For the figure "(3)" before the words "Recall from leave" in this Section, figure "(4)" shall be substituted.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 5th December 1933.

Third Forecast of the Cotton Crops of Bengal, 1933-34.

(Note.—On an average of the five years ending 1931-32, the area under the cotton crops in Bengal has represented some 0.2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Since the issue of the second forecast in October last, weather conditions continued generally favourable except in Mymensingh and Tripura State where heavy rain somewhat affected the early crop in places. On the whole, a higher outturn was harvested this year.

The prospects of the late crop are expected to be fair.

Area sown.—The total area sown with early cotton is returned at 74,760 acres and that with late at 1,032 acres this year as against 74,590 and 1,100 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 23,499 bales and the late crop at 303 bales as against 20,195 and 308 bales, respectively, in the corresponding forecast of last year.

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 14th December, 1933

Final Forecast of the Bhadoi Crops of Bengal, 1933-34.

(Note.—On an average of the five years ending 1931-32, the area under autumn rice in Bengal has represented some 6.4 per cent. of the total area under rice in British India.)

Character of the season.—As indicated in the preliminary forecast, the weather was generally favourable for sowing and for the growth and development of the crops. Damage by flood and heavy rainfall was caused to certain low-land tracts of West and North Bengal. High-land crops, on the other hand, fared well. On the whole, the season was satisfactory for crops.

Acresage.—The total acresage sown with the different *bhadoi* crops this year is reported to

be 6,520,600 acres as against 6,549,600 acres last year. Of this, the area under autumn rice is estimated at 5,775,300 acres as against 5,794,800 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 79 per cent of the 'normal' this year as against the same estimate last year.

The autumn rice is estimated to yield an outturn of 79 per cent. of the normal for the province this year as against 83 per cent. estimated by this department last year. In my opinion the outturn of autumn rice is an under-estimate and the crop will not fall short of 85 per cent of the normal as estimated in the preliminary forecast.

On the basis of a normal yield of 12½ maunds of clean grain per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 2,254,100 tons this year as against 2,208,500 tons revised last year.

Director of Agriculture, Bengal (offy.).

**DEPARTMENT OF AGRICULTURE,
BENGAL.**

Dacca, the 14th December 1933.

**Second Forecast of the Winter Rice Crop of
Bengal, 1933-34.**

(*Note.*—On an average of the five years ending 1931-32, the area under winter rice in Bengal has represented some 17.5 per cent. of the total area under rice in British India.)

Character of the season.—Since the submission of the first forecast, excessive rainfall in August caused damage to the crop in most of the districts of West Bengal. Good rainfall with alternate sunshine in September and October generally favoured the growth and final development of the transplanted winter paddy. On the whole, a satisfactory outturn is expected for the province.

Acresage.—According to the figures returned by the District Officers the total area

under winter rice is 15,535,600 acres as compared with 15,537,300 and 15,590,000 acres in the corresponding and final forecasts of last year. The increase in area as compared with that of the first forecast is due to further transplantation.

Outturn.—From the summary of the district returns appended, it will be seen that two districts report a bumper crop, four districts report a normal crop, seventeen districts a crop varying from 75 to 92 per cent. and the rest below 70 per cent. of the normal. According to the above estimates, the provincial outturn works out to 86 per cent. of the normal as against 90 per cent. estimated by this department, both in the corresponding and final forecasts of last year.

Accepting 86 per cent. as provincial outturn, the gross yield of the crop on the basis of a normal yield of 13½ maunds of clean grain per acre is estimated at 6,625,800 tons this year as against 6,934,700 and 6,958,200 tons, respectively, in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal (offg.).

Dacca, the 15th December 1933.

**First Forecast of the Spring Oilseed Crops of
Bengal, 1933-34.**

(Note. —On an average of the five years ending 1931-32, the area under linseed in Bengal has represented some 3·5 per cent. and that under rape and mustard 11·0 per cent. of the total areas under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are principally grown in the Presidency, Rajshahi and Dacca Divisions. In the other two divisions, the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 867,500 acres this year as against 868,800 and 885,200 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September and in the first half of October which was generally above the normal delayed sowings in Rangpur, Pabna, Mymensingh and Bakarganj. Elsewhere the operations generally commenced in normal time. Dry weather in November was helpful to further sowings and growth of the crops. The present condition is reported to be favourable, on the whole.

Director of Agriculture, Bengal (offg.).

Resolution on the Report on the administration of the Jail Department of the Presidency of Bengal for the year 1932.

RESOLUTION—No 4413 P.J

The Report on the Administration of the Jail Department of the Presidency of Bengal for the year 1932.

The Reports for the years 1929, 1930 and 1931 and the Resolutions of Government thereon

1. The early months of the year 1932 witnessed a revival of civil disobedience and the influx of a fresh stream of prisoners into the jails. Fortunately, the department forewarned by previous experience, were ready to meet the challenge. The Hijli Additional Special Jail, the Dum Dum Special Jail and the Dum Dum Additional Special Jail were brought into commission at once, and later on in the year, a second Additional Special Jail was opened at Dum Dum, and a female jail at Berhampore, in the district of Murshidabad. A marked increase, both in the total number of admissions during the year and in the average daily prison population, was, therefore, to be expected. The number of admissions was 43,695 against 30,727 in 1931 and 36,801 in 1930, while the average daily strength during the year was 22,618·23 against 19,300·19 in 1931, 20,015·20 in 1930, and the normal figure of about 14,500. The population received into the jails in the course of the year reached the appalling total of 150,837 or 20 per cent. more than the figure for the year 1930 which witnessed the first phase of the civil disobedience campaign. This is but one indication of the price that has to be paid for the spirit of lawlessness which the cult of civil resistance engenders.

2. A feature of the civil disobedience movement of 1932 was the large number of women who were deliberately encouraged to court imprisonment. The number of females admitted to prison from the courts during the year was 1,300 against 697 in 1931, 628 in 1930 and the normal figure of 400-420, while the daily average number of female prisoners throughout the year was 309·55 against 140·42 in 1931, 152·61 in 1930, and 109·86 in 1929. The increase was almost entirely attributable to civil disobedience activity.

3. The number of juvenile and adolescent prisoners admitted to jail, though in excess of the figures for the previous year, showed a slight decline as compared with the figures for 1930 when the first phase of the civil disobedience movement was in progress. The percentage of convicts admitted to prison between the ages of 16 and 18 was 7·42, and between the ages of 19 and 21, 12·76, as against 9·87 and 13·58, respectively, in the year 1930. These percentages are considerably in excess of the normal, and though economic conditions may have been a contributory factor, the main reason for the increase was the fact that civil disobedience offered an attractive diversion to school boys and students, whose emotions were so worked upon by civil disobedience leaders that they were persuaded that they were performing a patriotic duty in defying the established laws of the country. It is a tragic fact, which needs to be emphasised because it is so often forgotten, that the ranks of these youthful civil resisters have provided a fruitful recruiting ground for the terrorist organisations.

4. The unprecedented number of prisoners in the jails necessarily led to overcrowding, and this in its turn increased enormously the difficulties of jail management. The majority of civil disobedience prisoners were not amenable to any form of jail discipline, and many made a point of being as insubordinate and difficult as possible, and of disregarding every jail rule, very frequently at the expense of their own comfort and convenience. There was also a marked increase during the year in the number of prisoners convicted of terrorist offences who added still further to the responsibilities and anxieties of the Superintendents and jails staff. Encouraged to believe that they were martyrs in the country's cause they, like

 - (8) Relief map of India.
 - (9) Crop atlas of India.
 - (10) A small commercial museum containing chief minerals and economic products of India with statistical charts and diagrams.
- Also books on Commercial and General Geography to the value of Rs. 50 in the School Library.

Elementary Mechanics.

The following books are recommended:—

A. N. Sen. *Elementary Mechanics.*
Briggs and Bryan. *Matriculation Mechanics.*

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination:—

Plumb-line and level.
Simple lever (including brass slotted weight).
Roman Steelyard.
Lecture apparatus for experiment on movements.
(George's New Atwood's Machine).
Stop-watch.
(Glazebrooke's apparatus (to demonstrate movement of body)).
Hick's ballistic balance.
Compound wheel and axle.
4 single brass pulleys.
2 triple brass pulleys.
Western differential pulleys blocks ($\frac{1}{2}$ ton)
16 feet of chain at 6d. per foot.
Inclined plane.
Parallelogram of Forces Apparatus
Wall crane.
Backer's New Physical Balance.
Set of gramme weights (200 grammes to 1 mgr.).
2 composition ivory balls.

Note.—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstrating purposes, and subsequently to develop simplified duplicates illustrating the same principles, which the boys should be given opportunity actually to experiment with, on their own individual account or working in pairs.

Mathematics

No text-books are prescribed or recommended. The subject is to be studied in accordance with the syllabus prescribed in the Regulations.

STATEMENT OF OBJECTS AND REASONS.

The Civil Justice Committee in Chapter VII of their Report recommended the adoption of measures for affording some relief to District Judges in respect of their functions under the Land Acquisition Act, 1894. Difficulty has been experienced in giving effect to this recommendation owing to certain doubts that have arisen as to the correct interpretation of section 3(d) of the Act. CALCUTTA, THE 21ST DECEMBER 1933.

RESOLUTION—No. 14963 Emi.

Read—

The Report on inland emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1933, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

There was a further decrease in the number of emigrants despatched to the labour districts during the year under review, recruitment being curtailed owing to the general economic depression.

2. Recruiting operations in this Presidency were conducted only in the districts of Birbhum and Midnapore. The number of garden sardars employed during the year was 13 (including 3 sardarnis) as against 60 and 100 in the two previous years. They all worked under the control of licensed local agents. The number of local agents' licenses was 15 as against 14 issued in the previous year. The total number of emigrants recruited in Bengal was 56 as against 97 in the previous year. Of these, 13 came from Birbhum and the rest (43) from Midnapore. The total number of recruits from Bengal and other provinces embarking at Goalundo was 569, as compared with 1,522 in the previous year. During the year under report no emigrant was despatched to Assam by the steamer route *via* Goalundo, though 1,027 emigrants were sent by this route in the previous year. The reason for this is apparently that the railway route *via* Amingaon is preferred as being the quicker for conveyance of emigrants to the tea gardens of Assam proper.

3. The rest houses for emigrants at Asansol, Kharagpur, Naihati and Goalundo maintained by the Tea District Labour Association were frequently inspected and their condition was found to be in all respects satisfactory.

4. Of the 51,193 emigrants who halted at Naihati 12,926 went to the Dooars and the rest with the exception of one mentioned below went to Assam, Cachar and Sylhet *via* Amingaon and Goalundo. Among the total number of emigrants who arrived from the different recruiting districts in and outside the Presidency of Bengal, two deaths, one from small-pox and the other from diarrhoea, and one desertion occurred during the halt at Asansol and one desertion at Naihati; no other death or desertion occurred amongst the emigrants in transit. As in the previous year there was no desertion nor death among the emigrants during their journey from Goalundo to their final destinations.

5. In connection with the transport of labour to Assam both receipts and expenditure increased from Rs. 700 to Rs. 950 and from Rs. 7,544-6 to Rs. 7,748-5, respectively, as compared with the previous year.

6. The office of the Superintendent of Emigration was held by Lieut.-Col. K. S. Thakur, I.M.S., from the beginning of the year up to the 17th November 1932 and by Lieut.-Col. A. Denham White, I.M.S., from the 18th November 1932 till the end of the year. The thanks of the Governor in Council are due to them and to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

O. M. MARTIN,

Secy. to the Govt. of Bengal (offg.).
